At	Land Adjacent To White Cottage , Church Street	For	Mr M Webster MWBC
Planning officer	Joe Brooke	Date	19 July 2019

The Council object to this application on the grounds that there would be no garage and no parking in an area already heavily congested and this contradicts both the Neighbourhood Plan and Core Strategy which specifies the need for at least one parking space per dwelling. Cllr Kendall abstained

4.

19/01719/FUL	Two-bedroom bungalow, access and parking		
At	88 Mountford Close	For	Mr J Kendrick
Planning officer	Paul Thompson	Date	24 July 2019

The Council object to this application on the grounds it would be overdevelopment of the site and overbearing of the neighbouring property, the bungalow would sit well forward of the existing bungalow, would be portrait rather than landscape in layout to the road and therefore would be out of keeping with the existing street scene where all bungalows are landscape layout to the highway, the drive would be unsuitable as the vision splay would be onto a blind bend and there is insufficient land space for a turning area which would mean reversing into the highway at a blind bend in an area plagued by congestion.

Cllr Kendall abstained

At	3 Long Ground	For	Mr Brian W Lewis
Planning officer	Ruth Rose	Date	26 July 2019

The Council object to this application on the grounds it would be unnecessary removal of healthy trees to replace with less mature trees when the existing mature trees could be pruned and maintained. These trees provide a natural green barrier and soft landscaping to the housing estate built on Long-ground and were protected by the conditions of the original planning application for this development due to removal by the developer of some of this boundary. (SDC Enforcement forced the developer to replant native species to this boundary at the time) The Council outlined the following:

T1 & T7 fell – would agree to this if compromising other trees

T2, T4, T5, T9, T10 – object to felling - these should not be felled but pruned and managed

T3, T6, T8 – crown lift should be carried out
